

Our School's Pet Leopard Gecko!

Brookside Primary School pupils were very excited to be introduced to their new baby female Leopard Gecko. They enjoyed learning about what a Leopard Gecko needs, about their habitat and thoroughly enjoyed observing, stroking and holding her with care. The pupils will be finding a suitable name for her very soon. Thank you to our parents, guardians and carers for your kind donations towards our School pet.

Living Things and their Habitats!

Year 2 are learning about Living Things and their Habitats in Science. The children truly enjoyed completing their projects and models at home with their families of different habitats, and the plants and animals that live there. These habitats included: polar habitats, rainforests, deserts, oceans, ponds and woodland. They were happy to share with their teachers and classmates the facts they researched about living things and their habitats to go with their models.

Money Madness!

The children in Year 2 have been learning about money in Mathematics. They are able to recognise, describe and know the value of the different British coins and notes. They have been able to demonstrate how to combine monies to make different amounts while using the symbols for pounds (£) and pence (p).

They have enhanced their understanding of money concepts by finding different combinations of coins that equal the same amount of money. The children have shown great resilience in using their Mathematics skills to solve problems involving the addition and subtraction of money, including giving change.

Well done to the Year 2 children for their diligence in learning and demonstrating important mathematical skills whilst learning real-life skills.

Plant a Tree for the Future!

What a great first-hand experience this activity was for the members of the Nature and Eco Council. The children capitalised on the opportunity to get their hands dirty working alongside the team from the London Borough of Hillingdon, planting trees around the School and the School's garden.

MY-CATS – University of Oxford

Brookside Primary School has partnered with the University of Oxford to undergo a MY-CATS (Minimising Young Children's Anxiety Through Schools) research project for children in Reception, Year 1 and Year 2! MY-CATS is a research project which aims to test a new way of identifying and supporting children to help build confidence and minimise problems with anxiety, now and in the future. It involves parents, guardians and carers completing questionnaires to help us identify which children may be most likely to benefit from support, and then offering them online and telephone support. The support is designed to help parents, guardians and carers encourage their child to build confidence and to provide them with skills and strategies for the future. Please click on the links sent via email and complete the application form before Monday 7th March.

International Women's Day - Tuesday 8th March

International Women's Day is a day to celebrate the acts of courage and determination of empowering women, whose remarkable achievements have played an extraordinary role in the history of their nations. It is a day dedicated to honouring the contributions of such women who have made a difference through their resolve, sacrifices and their part in the advocacy of women's rights.

Virtual Asthma Workshop

On Monday 28th March, the NHS Team would like to invite parents, guardians and carers to sign up for an online Asthma workshop to be presented over Zoom. The sessions will run from 4:00pm to 5:00pm and are designed to help you understand what to do if your child is having an Asthma attack, providing inhaler techniques and highlighting common triggers. There are limited spaces available so if you are interested, please contact the team to book your place via **01895 543 437** or at nhswlccg.myhealth@nhs.net.

CHILDHOOD ASTHMA

Join our **FREE Virtual Asthma Workshop**

4pm - 5pm

MARCH 28th

Presented over: **zoom**

Session presented by a Hillingdon asthma nurse, covering:

- What to do if your child is having an Asthma attack
- Inhaler techniques
- Myth Busting
- Asthma plans
- Common triggers

LIMITED SPACES AVAILABLE
